Exia . CESI - France
Working on my 5th year in IT Engineering School, oriented **development**.
- **Exchange** ~ Jan. 2017 - Jun 2017
UQAM - Canada
Proceed to an exchange program where I studied about **Machine learning & Object-Oriented Programming**.
- **Two Years Degree** ~ 2015
Exia . CESI - France
Succeed my second year in IT engineering school.
- **French High school diploma - Sciences** ~ 2013
Marc Chagall - France
French high school diploma speciality **Engineering Sciences** with mention.

PROFILE

I am actually in my 5th year in **IT engineering** school in France.
I did almost all my internships around the world :
France / Netherland / Japan / Canada
I totally fell in love with traveling and I would like to work internationally.

So far I did internships to find out what kind of jobs I would like to exerce after school. Now I know that I would love to work on **new technologies** and feel like **doing something useful for people**.
That is why I want to find my last internship in that field, and act with people who contributes to make **our world a better place**.

EXPERIENCES

- **Viaflat - Netherland** ~ Sept. 2016 - Dec 2016
Web Developer / Manager
Web developer for Viaflat, a Start-up based at Maastrich in Netherland. I used **Laravel 5.3** to develop the web site and **Scrum** as managing method.
- **Hitachi - Japan** ~ Feb. 2016 - May 2016
IT intern - IOT
IT intern for Hitachi based at Totsuka in Japan. I worked on IOT (Internet of Things), I did research and developpement about it.
This internship was for me extremely valuable professionally and personally. I totally fell in love with the Japanese culture.
- **CESI - France** ~ Apr. 2015 - Juill. 2015
C# developer
Internship at my school's laboratory in France. I worked on window blinds automation using **C#**.
